1 IN 8 WOMEN will develop breast cancer in her lifetime.  

8 OUT OF 9 WOMEN diagnosed with breast cancer have no family history. 

But, with early detection, the five-year survival rate is almost 100%.  

Genius™ 3D MAMMOGRAPHY™ exams are only available on the Hologic Selenia® Dimensions® system. Please consult your physician for a complete list of benefits and risks associated with mammography.

Breast cancer survivor and nine-time GRAMMY® award winner Sheryl Crow chooses the Genius™ 3D™ mammogram.
The Genius™ 3D MAMMOGRAPHY™ exam is the only mammogram proven to detect breast cancers 15 months earlier,\(^1\) reduce unnecessary callbacks by up to 40%,\(^2,3\) and find 41% more invasive cancers than conventional mammography alone.\(^2\)

**What to Expect During Your Exam**

The process of a Genius™ 3D MAMMOGRAPHY™ exam is the same as your conventional 2D exam. The technologist will position you, compress your breast, and take images from different angles. There's no additional compression required with the Genius™ 3D MAMMOGRAPHY™ exam, and only requires a few extra seconds to receive a more accurate reading of the breast tissue.

The technologist will view the images of your breasts at the computer workstation to ensure quality images have been captured for review. A radiologist will then examine the images and report results to either your physician or directly to you.

**Early detection saves lives. Ask about getting the Genius™ 3D MAMMOGRAPHY™ exam today!**
